## LANGUAGES AND TECHNOLOGIES

---

- C++; C; Java; C#; ASP.NET; PHP; Python; HTML; CSS; JavaScript; SQL; OCaml; Smalltalk; XML Schema.
- Stored Procedure, Indexing, Matlab; Visual Studio; SQL Server; MySQL; Pharo; Netbeans; Eclipse; Linux; SVN; GitHub; TFS; OpenCV; Merge Sort.

## EMPLOYMENT

---

**Graduate Assistant**      **Database and Information Systems Laboratory in Univ. of Illinois**      **Jan 2012 - May 2012**

- Reduced time to render the data list by 80% by redesigning an existing recursive algorithm with integral database access.
- Developed front and back ends for User Authentication and Password Encryption modules.
- Integrated TextCube, TopicCube algorithms into the NASA eventCube Data Mining system.

**Software Development Eng. Intern**      **Microsoft Corp.**      **Sep 2011 - Dec 2011**

Global Information Management Platform for China Guangfa Bank (CGB)

Department: *Consulting Services*; Position: *Leader for team of 4*

- Designed the XML validation schema and implement the workflow of Semi-automatic Batch Import, Audit and Publish, based on XML, Silverlight and Stored Procedures.
- Designed and implement the Advanced Search and Statistic Management Modules, based on User Defined Controls, Indexing and Optimized Stored Procedure, to help make scientific, grounded decisions.
- Lead my teammates working on Web Performance Testing, Load Testing and Performance Analysis, delivered our work ahead of deadlines and gave assurance of bug-free.

## EDUCATION

---

**Champaign, IL**      **University of Illinois at Urbana-Champaign**      **Spring 2012 - Fall 2013**

**M.C.S. in Computer Science**      GPA: 3.04 (2013 Summer 3.67)

- Advanced Coursework (*Most challenging ones, more than required are taken for interest*): Advanced Data Mining; Computer Vision; Applied Cryptography; Object Oriented Programming and Design; Independent Study.
- Breadth Coursework: Text Information Systems; Database Systems; Programming Languages and Compilers; UI Design.

**Guangzhou, P.R.C.**      **Sun Yat-sen University (SYSU)**      **Fall 2007 - Spring 2011**

**B.E. in Software Engineering**      In-major GPA: 3.43

*Cumulative GPA for the 2<sup>nd</sup> and 3<sup>rd</sup> academic year: 3.63*

- Selected Coursework: Algorithms; Computer Vision; Unified Communication; Software Engineering; Numerical Method.

## TECHNICAL EXPERIENCE

---

- **Panorama Stitching, 3D Reconstruction and Affine Factorization (2013).** Feature detection with RANSAC and Homography Transform.
- **Illini Tutor Search (2012).** Selected demo as a class project and win full score. Full featured UIUC tutor searching website with extensive database design, advanced search and auto tutor-matching.
- **Object Oriented Tic-tac-toe (2013).** Smalltalk-based Ultimate Tic-tac-toe Implementation with Seaside framework. With a series of AI support.
- **Team Leader in Mobile Multiparty Authentication System (MMAS) (2010).** 3rd Prize in National Information Security Contest among over 500 competitors, 1st Prize in SYSU selective trials.

## AWARDS

---

- 2008-2010 Twice awarded 3<sup>rd</sup>-Prize Scholarship for Academic Excellence by SYSU
- 2009-2010 3<sup>rd</sup> Prize in National Information Security Contest issued by The Ministry of Education
- 2009-2010 3<sup>rd</sup> Prize in ACM Programming Contest held by SYSU
- 2009-2010 3<sup>rd</sup> Prize in Mobile Terminal Software Innovation Contest
- 2007-2008 Winning Prize in Software Innovation Contest held by SYSU
- 2008-2009 Top 7 in Men's 50m Backstroke Race of SYSU Swimming Contest
- 2008-2009 Top 7 in Men's 200m Breaststroke Race of SYSU Swimming Contest

## APPENDIX

---

**Guangzhou, P.R.C.**      **Sun Yat-sen University**      **Fall 2007 - Spring 2011**

**B.E. in Software Engineering**      In-major GPA: 3.43

# Yanliang Han

Email: [yanl8@illinois.edu](mailto:yanl8@illinois.edu) Phone: (+1) 217-418-7202

- Math Coursework: Numerical Method; Linear Algebra; Discrete Mathematics; Calculus; Probability Theory and Mathematical Statistics.
- CS Coursework: Data Structure and Algorithms; Human Computer Interaction; Computer Vision and Graph Understanding; Unify Communication; Software Engineering; Database System Principle; Information Security; Linux Analyze and Application; Advanced E-business; ERP Enterprise Application; Operating Systems; Computer Organizations and Architecture; Digital Circuits.
- Economics Coursework: Family Business Administration; Strategic Administration.
